Samling Delivers Food and Medical Aid to the Needful

At the Samling Group, we are committed to doing everything we can during the COVID-19 pandemic to provide food and medical aid to the people who need it.

On April 21, 2020, Samling distributed 4,000 food packs to the Miri Disaster Management Committee under the leadership of Datuk Lee Kim Shin to the needful in the Tudan resettlement area. The Group also donated medical supplies to the Red Crescent Miri Chapter, frontliners, Miri Polyclinic and other outlying clinics in the Miri and upper Baram areas.

Apart from that, Samling delivered medical supplies to Kapit, Limbang and Lawas Hospitals as well as to polyclinics and rural clinics in the respective areas. We have been providing much-needed medical supplies and PPEs to around 90 medical institutions in the state. We are expecting additional consignment of medical supplies for Baram and Miri to arrive soon.

Samling continues to support the State Government in all its efforts in fighting the COVID-19 pandemic. It is more important now than ever to come together to support and assist one another through this period of uncertainty. #KitaJagaKita.
